DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-3,6,7,9-16,18,19 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. As per the most recent interpretation of the Interim Guidelines regarding 35 U.S.C. 101, claims 1-3,6,7,9-16,18,19 define non-statutory processes because they merely manipulate an abstract idea (the mathematical manipulation of data (calculating tracking parameters of data)) without a claimed limitation to produce a useful, concrete, tangible result. If the acts of a claimed process manipulate only numbers, abstract concepts or ideas, or signals representing any of the foregoing, the acts are not being applied to appropriate subject matter (Benson, 409 U.S. at 71-72, 175, USPQ at 676). Furthermore, claims define nonstatutory processes if they simply manipulate abstract ideas (Warmerdam, 33 F.3d at 1360, 31 USPQ2d at 1759). Lastly, in evaluating claims in view of 35 U.S.C. 101, the "limited to the technological arts" test is no longer valid (see Annex III of the Interim Guidelines).

Allowable Subject Matter

3. Claims 1-3,6,7,9-16,18,19 are allowable over the prior art of record.

Art Unit: 2655

4. The following is a statement of reasons for the indication of allowable subject matter:

As per the independent claims, the claims pertaining to the calculation of packet delays and the rate of differential, along with maintaining a known number of packets, is not explicitly taught by the prior art of record.
